Our Story

Fine Art & Whimsical is a Yorkshire family business inspired by wildlife, countryside living, and the beauty of slower, more meaningful spaces.

Founded by Adele, our collections begin with original hand-drawn and painted artwork inspired by the Yorkshire coast, British wildlife, and the small details discovered on countryside walks and coastal escapes. These illustrations are then transformed into carefully curated homeware and lifestyle pieces including mugs, coasters, prints, and seasonal collections designed to bring warmth, personality, and a sense of calm into everyday spaces.

What started as a personal creative passion has naturally grown into a three-generation family business, with each generation helping bring the brand to life through creativity, storytelling, community building, and collaborations with Yorkshire holiday homes and independent businesses.

We are currently working with selected holiday cottages and guest spaces across Yorkshire to create authentic, locally inspired guest experiences through artwork and curated collections that guests connect with and remember.

Every piece is designed with the intention of helping people feel more connected to Yorkshire, its wildlife, its landscapes, and the quieter moments that make a stay feel special.

How Collaborations Work

A simple process tailored to your home and guests

1

CHOOSE YOUR COLLECTION

We help you choose artwork and wildlife collections that suit your property, location, and style.

2

WE CURATE YOUR PACKAGE

Your chosen collection is carefully prepared within our Yorkshire studio and styled to sit naturally within your guest space.

3

WE COLLABORATE TOGETHER

As our Yorkshire collaborations grow, we feature partner properties across our social media, website, and Letters from Yorkshire.

*Inspired by Yorkshire.
Made to be remembered.*

We'd love to hear more about your property and explore a collection tailored to your space
